"You are bold, deep, dark, mysterious, have your own world." - naja, ne andere Beschreibung kommt für mich eh nicht in Frage...

Seneca - 27.4.2005 um 13:19

You are Cocaine (aka: coke, crack, snow, 151...). You are the second most commonly used drug in the world. You are very witty, talented, perky person if you can just have the right opportunity to show to everybody how unique you are, when you are in a good mood you can reach a very high point of happiness. You are classified as class (A and B) illegal drugs.

Muß ich mal ausprobieren, hab'ich noch nie. Soll so an die Zähne gehen. Aber mein Freund wollte das sowieso mal auf den Schwanz geschmiert bekommen, soll von der Wirkung her überzeugend sein.

Zitat
You are Heroin (aka: smack, dope, brown sugar...). You are the most dangerous drug between all other kinds. You are bold, deep, dark, mysterious, have your own world. You are classified as class (A) illegal drugs.

Auch interessant finde ich folgende Frage: [What kind of masks you hide behind?](#)

Mein Ergebnis: [I]You hide behind The Shadow Mask, you don't like to be in the spot light, you like to hide from everybody and just be alone, you think you put yourself in this position with your own will but the truth is that people made you go there, you don't trust people any more though inside you there is a voice screaming to go out and see the light, you look for some one who understands the real you, some one loves you unconditionally, if you were looking for some one to talk to, i'm all ears.[/I]

PS: als Art der Droge kam bei mir Marijuana raus
